Environmental Health & Safety:
Safety Data Sheets – Mobile Application Access

OVERVIEW:
As communicated in 2022, access to the most recent version of product Safety Data Sheets (SDS) can be found online to ensure our teams always have the most up to date content. **In addition to webpage access** there is now the option to access the SDS via mobile app (from a tablet or mobile phone). Your location has been selected to have advanced access to the app before it is given to other locations.

WHEN:
TBD = As soon IT receive the approval for the push OR through App store independent App download

WHAT:
The *Chemical Management App* will be remotely installed on your store iPad and will look like the icon below:

Please note that the existing access to the web version of the Safety Data Sheets remains available as well by navigating to the following link: https://chemmanagement.ehs.com

HOW TO ACCESS THE APP:
The access steps below are for *first time use only*. These steps will not be needed for future attempts to access and explore the app.
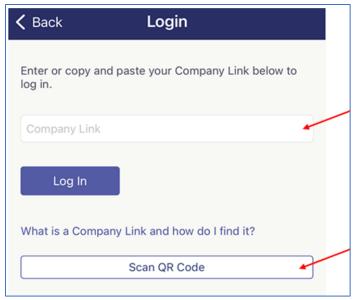

1. Find the Chemical Management App on your store iPad and **open the app**.

2. Select the *Don't have a Username or Password* option.

3. Select the preferred access option.

      a. Enter company link below: this option will bring you to the SDS pages within the app.
          https://chemmanagement.ehs.com/9/881befc5-4d1f-409e-a273-e2c3c3227cc4

OR

      b. Select scan QR Code: this option will bring you to the SDS pages via browser.

4. A welcome screen will appear, confirming you have successfully logged in.

5. Continue to navigate through the app to search products and SDS needed.
6. Additional SDS search instructions can be founded here: http://85les14trs16aas18ees.com/wp-content/uploads/2022/10/SDS-VelocityEHS-Search-instructions.pdf
