\*Distinguishes between vaccinated & unvaccinated

\*\*If a one door State, entire store is considered healthcare facility. Delineating Optical from Retail would be difficult and open brand to risk of fine or citation.

**Current U.S. Masking Requirements – Non-Optical Brands**  
As of May 25, 2023

State / Jurisdiction	Employees	Customers	Update Date
No US States require masking of non-optical / retail only business at this time. Local orders may apply.			

Local order requires all individuals to mask indoors regardless of vaccination status.

Please note, we should never ask for vaccination status or refuse service to customers who do not wish to wear a mask in jurisdictions where they are required.
