# **Searching for SDS**

Once you are on the website, there are 2 ways to search for your SDS.

- Search within our dedicated database (eBinder).
  This is more direct as it only looks through chemicals that have been previously approved for use by EssilorLuxottica.
- 2) Search the entire VelocityEHS SDS website (**MSDSOnline**). This search allows you to look for any SDS, any product.

**TIP:** You can search using only part of a chemical name or by manufacturer. This is helpful if you are not sure how to spell something or the material may have multiple naming conventions.

### **VELOCITY EHS – Safety Data Sheet Searching & Additions instructions:**

- 1) Search for your product by entering the research text in the below example search bar:
  - Research text can be any of following: PRODUCT NAME; MANUFACTORER, PRODUCT CODE, CAS NUMBER, SYNONYMS, SUPPLIER

Click the GREEN ICON next to the product name. This will open the SDS for viewing and printing as need.

## Options 2: MSDSonline Menu Search
